

Genisys EVO OBD II Kit

No. OTC-3869

Genisys EVO OBD II Kit

All new Genisys tester kits now include a **Free** 2011 Domestic/Asian software coupon.

[Click HERE for Sample Coupon](#)

Genisys Kits: 3869HD, 3871, 3871TPR, 3869 3872 & 3873

New 2011 vehicle coverage when released in Dec. 2011 via coupon.

No Competitor Matches the Value & Performance of Genisys EVO

Exclusive features and value found ONLY on OTC Genisys EVO:

- 2010 Domestic, Asian, and European software coverage. (*Providing up to 30 years of vehicle coverage)
- Coupon for free 2011 Domestic, Asian software coverage.
- Coupon for a two-month **FREE** Identifix Direct-Hit subscription.
- Code-Assist™ provides over 4.5 million experienced-based
- Confirmed Fixes™ for vehicle specific, OBD II diagnostic trouble codes (DTC's).
- Repair-Trac Tech Tips by Identifix is the largest database of known vehicle-specific fixes.
- OBD II Smart Cable.

Direct Technician Feedback...

Continues to drive the evolution in Genisys diagnostics, Genisys EVO™. As an example, technicians asked for video out for projection to a PC monitor, USB communications for use with a diagnostic workstation, asynchronous DataStream with 4 line graphs per screen to better view and analyze data in real time. Genisys EVO packages these productivity enhancements in a new aggressive design.

Genisys EVO Features:

- Four Graphs Per Screen
- More Aggressive Over-Mold
- On/Off Button
- Faster Asynchronous Data Refresh
- Fresh Styling

This Genisys EVO Kit Includes:

- Genisys EVO
- OBD II Smart Cable
- 2010 Domestic / Asian / European
- InfoTech Component Test Data
- 2011 Domestic / Asian Coupon included in kit
- Card Reader & USB Cable
- AC Charger
- Carrying Case

Genisys EVO™ featuring Code-Assist™

“Code-Assist™ provides over a million experienced-based Confirmed Fixes™ for vehicle specific, individual OBD-II Diagnostic Trouble Codes (DTC’s). Code-Assist was developed using over 3.5 Million hotline calls to the Identifix Repair Hotline™ and the 5 Million + Direct-Hit™ uses by Identifix customers each year. Unlike the traditional list of theoretical potential causes provided by service manuals, Code-Assist supplies validated fixes for the B, C, P and U codes actually being set on vehicles and then ranks them by frequency, designating them as Top Reported Fixes, Frequently Reported Fixes and Also Reported Fixes.

Genisys System 4.0

System 4.0 is a software application and a high-speed compact 4 GB flash card containing power features that will improve the performance of all Genisys tools.

POWER FEATURES:

- **Fast Boot™** (Patent Pending)
 - Approximately 8 seconds for the new Genisys
 - Approximately 15 seconds for the Genisys Classic (3454 and earlier)
- **Quick DTC Scan™** — automatically scans for enhanced and OBD II system DTCs in seconds
- **Automated System Test™** — an extensive Health Check of enhanced vehicle controllers
- Link from Mode 6 Items to Repair Info.
- Link from Readiness Monitors to Drive Cycle Test Info.
- Onboard Accessory/Cable List
- Glossary of Terms
- Enhanced Report Printing Options

OBD II Smart Cable

Has the combined power of more than 50 System Smart Inserts.

- Eliminates the need for many current and future System Smart Inserts.
- Provides improved test capability and accuracy.

Bottom Line Benefits

- Improved technician satisfaction
- More convenient
- Faster diagnosis
- Higher technician productivity

Automated System Test

Automated System Test™ is one button press to perform a Comprehensive Health Test and report the data in a fraction of the time it used to take using manual, step-by-step procedures.

A System Analysis Test Report summarizes the findings in a new menu selectable format. This new format permits fast access to just the data you need, such as, DTC’s (generic and

enhanced), Freeze Frame, Mode 6 Component Test, Mode 5 Oxygen Sensor Tests, Mode 1 Readiness Tests, and more!

For additional time savings available repair information is a button press away. Pressing Enter on critical high frequency failure DTC's provides the technician with any available repair information for that specific vehicle.

Quick DTC Scan

Quick DTC Scan is one button press to perform a trouble code check of all supported vehicle systems in seconds. For the technicians that want a fast validation that all systems are clear of DTC's before or following a repair this is the test. Now you can test for generic and enhanced DTC's in seconds.

USA 2010 Domestic Software

NEW! vehicle coverage for GM, Ford, Chrysler, Jeep, & Saturn 2010 models including improved system coverage for earlier years. This OBD II Smart Cable compatible software also **includes the NEW Code-Assist™ by Identifix™**, Pathfinder troubleshooting with the NEW Code-Assist™, Repair-Trac™, Fast fixes™, Automated System Test™, Quick DTC Scan, Smart Card, manual, ConnecTech Reader, & the NGIS Windows-based program CD for downloading software updates.

Pathfinder Troubleshooting Information - Pathfinder troubleshooting information from 1992 to 2010 provides critical information at the technician's fingertips. In addition to the Repair-Trac™ & Fast Fixes™ databases, repair information includes:

- Code information • Symptoms • Specifications • Data/sensor information
- TSB references • PCM connector information • Component location

Repair-Trac™ Tech Tips - As the vehicle fleet ages more pattern-failure tech tips are available. Many Domestic, Asian, & European older vehicle tips added. Repair-Trac is the largest database of known vehicle-specific fixes available to the automotive aftermarket. Only the NGIS scan tool has the diagnostic power & the largest repair database to help you work smarter. Check it out:

- Coverage from 1969 - 2010 for USA domestic, USA Asian, & USA European
- Aftermarket TSB's based on info from over 2 million tech service calls
- Get Repair-Trac from the Main Menu, Data Stream, or Trouble Code menus

Fast Fixes™ Repair Information Database - Fast Fixes is a "sister" information database to Repair-Trac. No pattern failure listed for the vehicle's symptom? No problem. Fast Fixes data provides a vehicle-specific checklist of the most likely & most overlooked causes.

Systems covered: Engine performance • Brakes • Starting • Steering • Charging • Suspension • HVAC

USA 2010 Asian Software

NEW! vehicle coverage for Toyota, Honda, Nissan, Mazda, Mitsubishi & more 2010 models including improved system coverage for earlier years. This OBD II Smart Cable compatible update kit also includes the NEW Code-Assist experience-based data that links to Asian 2010 when Domestic 2010 is installed. Asian 2010 includes the new Automated System Test™ & Quick DTC Scan feature. Kit includes the NGIS software CD, manual, & Smart Card.

- **TPMS bidirectional tests** have been added for Toyota, Honda, Mitsubishi & more. Including the ability to enter the TPMS sensor I.D & sensor initiation.

- **EVAP bidirectional tests** for Toyota, Honda, Nissan, Mazda, Hyundai & Kia.
- Approximately **500 vehicles, 4000 systems & over 500 bidirectional tests** are added for 2010 & earlier vehicles.
- Asian Pathfinder Troubleshooter to include Data / Sensor Info for Toyota, Lexus, Scion, Nissan, Infinity, Honda, Acura, Mazda, Mitsubishi & more!
- Enhanced Hyundai coverage 1989 – 2010 & Kia 1994 – 2010.
- Honda licensed OEM data coverage includes engine, transmission, ABS, air bag, tire pressure monitor, & more body & chassis systems.
- Expanded enhanced Toyota to 2010 including OBD I, 1995 & older coverage.

InfoTech 2006 Software

InfoTech 2006 software provides the key information to take a vehicle-specific symptom or fault code to a fast & accurate repair.

Features & Benefits:

- Domestic, Asian, & European vehicle coverage for vehicles on the road
- Engine, transmission, & ABS systems covered.
- Asian & European coverage added for component wiring, circuit descriptions, component & control module locations.
- Vehicle System Test (multiple charging, fuel, & ignition tests)
- Engine Specifications
- Functional Tests
- Circuit Description
- Component Locations
- Wiring Diagrams
- Connector Information
- Component Specifications
- Reference Waveforms
- Oil Light Reset Procedures
- Current Ramping Tests
- Transducer Tests
